THE NEW HORIZONS IN THE GIFTED PSYCHOLOGY AND COUNSELING

THE COUNSELING AND THE GENEREALITIES INTERACTION

STRATEGIC REVIEW

Nasseroddin Kazemi Haghighi

The outhor presents a perspective in new findings in the giftedness definitions, psychology, identification and counseling. He resortes to strategic review (S.R.)-devised by the author. Results are proposed in five dimention: ۱) Yet, ther are ambiguities in the system of values and the theoretical concepts ۲) Underlying the gifted's fast learning and performance is the different and special thinking ۳) The creative's attitude is influenced by sexuality, development and culture ۴)The multiple methods must be applied in the gifted's identification ۵) The special counseling is necessary for the gifted's special problems. The author emphasizes interaction of the counseling and generalities in trend of psychology and identification. (Persian) pp. ۲۳۱-۲۵۰.
